Ensuring the Future of ASPA and the Public Service!

"Ask not what your country can do for you; ask what you can do for your country…. Let the public service be a proud and lively career."

President John F. Kennedy

"We know that government can’t solve all our problems—and we don’t want it to. But we also know that there are some things we can’t do on our own. We know that there are somethings we do better together."

President Barack Obama
Dear ASPA Leader,

As you consider year-end donations, please give priority to ASPA’s new and necessary campaign: “Ensuring the Future of ASPA and the Public Service.” The goal of the campaign is to create an enduring foundation for ASPA as it advocates for public and nonprofit professionals including:

- Advancing excellence in public service through the art, science, practice and training of public administrators.
- Fostering academic-practitioner dialogues and the knowledge base that enables public and nonprofit organizations to work at high levels of performance.
- Building global networks of academics and practitioners, extending to our policy leaders, our students, our private sector and nonprofit partners, and our citizens.

We will soon begin to approach our entire membership, leading practitioners, and foundations that share ASPA’s mission. They will ask if this campaign has the full participation of our leadership. Please join us by making your donation to show we have 100% leadership buy in. As an ASPA Leader, we need your contribution of any amount to at least one of the three areas of impact below:

**Option One:** Improving technological capacities, ensuring that ASPA has the means in a dynamic digital and social media environment to reach out to the millions of public and nonprofit practitioners and scholars.

**Option Two:** Dramatically increase student and early professional membership. Students and young professionals who have been members for less than two years currently account for one-third of our membership. They are demonstrably interested in what we have to offer. They are our future.

**Option Three:** Build the ASPA Endowment to support continued growth and innovation in the field for the future as new opportunities emerge and new strategic initiatives are put forth.

ASPA depends on your support. Please include ASPA in your 2016 giving. Thank you in advance!
